Outdoor Contract Collection 2026

THE OUTDOOR RANGE

Contract seating and tables, built for the weather.

The KECA U.S.A. outdoor program is built on the Tilia contract range — UV-stabilized, injection-molded polypropylene seating and tables engineered for daily commercial use in hotels, restaurants, cafés, pool decks, and event spaces. Most pieces are stackable and easy to clean, and each model comes in multiple colorways so you can match an existing scheme or build a new one.

A rotating selection is held in stock in Florida for fast delivery — look for the “In stock — FL” badge on the pages that follow. Everything else is made to order, typically arriving in about eight weeks. Send us your quantities and we will return a volume quote within one business day.
